Legende

Innovo NATUR oiled

Natural to the touch, protected for enduring vibrancy - the perfect symbiosis of oil and varnish.

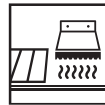

Twist PLUS matt varnished

Robust and easy to maintain with a natural, matt appearance - delivering a sense of calm and clarity.

Floating installation

With a floating installation, the planks are installed loose on polyethylene sheeting and can be easily removed again.

Full spread gluing

With full spread gluing, the floor is glued directly to the subsurface. The result is perfect impact sound coupled with optimum thermal conduction.

powerFIX locking system

powerFIX from tilo is the tried and tested premium locking system - precise, invisible and stable for perfectly connected floors.

Underfloor heating

All tilo floors are suitable for installation on underfloor heating systems, whether parquet or vinyl flooring.

Gradings

Each piece of wood is unique in its colour and structure. The grading is a question of personal taste and not a sign of quality; it only describes the appearance and structure of the wood.
